

APRJAC

FIGHT FOR RIGHT

Voice of visually Challenged

VISUALLY CHALLENGERS

ANDHULA POLITICAL RESERVATION JAC

Founder : Ponnaluri Srinivasa Phani, M.A., Ph.D.

INTRODUCTION

As we believe the formula of the Indian constitution. Each and every citizen of our honourable nation has equal right. Architects of our Nation building strongly believe the pillars of Democracy should be strong enough to give equal rights irrespective of caste, creed, religion and language. So far the diversity in the nation, we have the unity. With unity we got independence. Fruits of independence a long side of our nation, Seventy five years of independence has passed way, unfortunately A few of the sections were still in the darkness.

Reservations are applied to the fewer sections of the society by far or more in getting opportunity to represent in the legislative bodies, but the persons, who are visually challenged has been 1% reservation in jobs and Education only but ignored in applying the same in respect of legislative bodies (i.e., Panchayat to Parliament).

Government has taken so many steps to recover the loss and forget to uplift the rights of visually challenged. I witnessed in the backwardness of us due to various reasons. "My rightful march was continued from Narayanadri to Indhrakeeladhri (454 km) for 46 days. Even we left out the intervals, by crossing hardships, it was done for 36 days."

We consider that the legislators as our brothers and sisters and request very sincerely to give their voice in favour of our rightfull demand. On behalf of all, I sincerely request to give assurance to our right.

With kind hearted seriousness, I got out for the rights of the people, who are visually challenged need of the opinion, majority of the opinion leads the democracy, so that I wish to request ruling parties and opposition parties to give consent unanimously in approving the reservation in the next parliament session.

Catching up the assaults and discouraging words of denying sections, we reached the higher positions in different sectors. At least after the observation, one has to accept **"One cannot see only through eyes but mind can do a lot"**. Eyes are the windows of heart by understanding this sense. All the legislators have to look into this matter very seriously.

BE THE PART, HAVE A BRAVE HEART

చట్టసభల్లో రిజర్వేషన్ మా హక్కు
అలుపెరుగని అంధుని పాదయాత్ర

विधानमंडल में आरक्षण हमारा अधिकार
यह एक अथक नेत्रहीन ट्रेक है ।

LAST (BUT NOT END) A FEW WORDS

The main aim of this march is none other than achieving 1% reservation in the legislative bodies. In 36 days of march, I am Very unhappy and miserable of the humility of our visually challenged people. My sincere effort in solving the problems and removing the hardships in the lives. Though they had the weakness, overcoming that they reached high positions with great reverence and respect.

Many like Srikanth bolla (CEO), Pranjil Patil (IAS), and Sekhaer Nair (IBCT Captain) got success in their lives. Though they are blind they crossed and faced a number of obstacles in their way to success.

Fighting for the rights of visually challenged, So many organisations have been established. we don't give up this without reaching our goal. I Established an "ANDHA(Visually Challengers) POLITICAL RESERVATION JOINT ACTION COMMITTEE (APRJAC)", and acts as a Convenor. It will be the biggest JAC in india.

With inspiration of Helen Keller words **"OPTIMISM IS FAITH THAT LEADS TO ACHIEVMENT NOTHING CAN BE DONE WITHOUT HOPE AND CONFIDENCE"**

I am indebted to my parents Smt.Ramadevi, Sri Gopalakrishna Murty and my village residents East Kopperapadu, J.Pangalur (mandal), Prakasam dist. Andhra Pradesh.

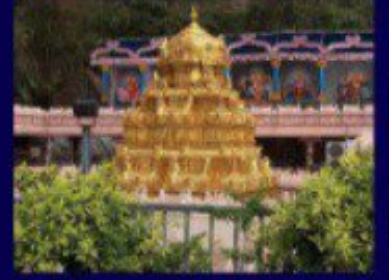

My Special thanks to my teachers, the great leaders who came to support me, the policemen who walk with me and guarded me throughout the journey, print media and electronic media, who support me to reach the people with my aim.
